

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

|                                |   |
|--------------------------------|---|
| <b>1.1. Product identifier</b> | Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches |
| Substance / mixture            | mixture   |
| Number                         | 126   |
| UFI                            | YTA0-N0M7-400Q-RTCD                                     |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against Mixture's intended use

Microcrystalline cellulose filler with added nicotine and flavourings for oral use.

#### Mixture uses advised against

The product should not be used in ways other than those referred in Section 1.

### 1.3. Details of the supplier of the safety data sheet

#### Distributor

|                             |  |
|-----------------------------|--|
| Name or trade name          | Kingston Trading (UK) LTD  |
| Address                     | Site A Wiltshire Road, Dairycoats Industrial Estate, Hull, HU4 6PA<br>United Kingdom |
| Identification number (CRN) | 08325124   |
| VAT Reg No                  | GB177326292  |
| Phone                       | +44 (0)1482 326555   |
| E-mail                      | Info@kingstondistro.co.uk  |
| Web address                 | www.kingstondistro.co.uk   |

#### Competent person responsible for the safety data sheet

|        |                           |
|--------|---------------------------|
| Name   | Kingston Trading (UK) LTD |
| E-mail | Info@kingstondistro.co.uk |

### 1.4. Emergency telephone number

National Health Service (NHS) 111  
National poisoning information centre Scotland, NHS 24: 111

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification of the mixture in accordance with Regulation (EC) No 1272/2008

The mixture is classified as dangerous.

Acute Tox. 3, H301

#### Most serious adverse effects on human health and the environment

Toxic if swallowed.

#### 2.2. Label elements

##### Hazard pictogram

##### Signal word

Danger

##### Hazardous substances

nicotine (ISO)  
4-(4-hydroxyphenyl)butan-2-one

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

### Hazard statements

H301 Toxic if swallowed.

### Precautionary statements

P101 If medical advice is needed, have product container or label at hand.  
P102 Keep out of reach of children.  
P264 Wash hands and exposed parts of the body thoroughly after handling.  
P301+P310 IF SWALLOWED: Immediately call a doctor.  
P405 Store locked up.  
P501 Dispose of contents/container to by handing over to the person authorized to dispose of waste or by returning to the supplier.

### Requirements for child-resistant fastenings and tactile warning of danger

Container must carry a tactile warning of danger. Container must be fitted with child-resistant fastening.

### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Dust may form explosive mixture with air.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

| Identification numbers                                | Substance name                 | Content in % weight | Classification according to Regulation (EC) No 1272/2008  | Note |

| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

Full text of all classifications and hazard statements is given in the section 16.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

##### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Take care of your own safety, do not let the affected person walk! Beware of the contaminated clothes. Depending on the situation, call the medical rescue service and ensure medical treatment considering the frequent need of further observation for at least 24 hours.

##### If on skin

Remove contaminated clothes. Take off any rings, watches, bracelets before or during washing if worn in the contaminated areas of the skin. Rinse contaminated areas with a flow of water, lukewarm at best, for 10-30 minutes; do not use any brush, soap or neutralizers. Depending on the situation, call the medical rescue service and always ensure medical treatment.

##### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

##### If swallowed

INDUCE VOMITING! Vomiting should be induced in the person only if conscious, within 1 hour from ingestion. If in doubt whether vomiting should be induced, contact the Toxicological Information Centre and give information about the substances or composition of the product as provided on the original packaging or in the safety data sheet of the product. FOLLOWING INGESTION OF TOXIC OR HIGHLY TOXIC SUBSTANCES, GIVE 10-20 CRUSHED TABLETS OF ACTIVATED CARBON, MIXED IN WATER, WITHIN NO LATER THAN 5 MINUTES - irrespective of whether vomiting could be induced. Call medical rescue service.

#### 4.2. Most important symptoms and effects, both acute and delayed

##### If inhaled

Not expected.

##### If on skin

Not expected.

##### If in eyes

Not expected.

##### If swallowed

Irritation, nausea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

##### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

##### Unsuitable extinguishing media

Water - full jet.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

### 6.3. Methods and material for containment and cleaning up

Place the product mechanically in an appropriate manner. Dispose of the collected material according to the instructions in the section 13.

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Do not eat, drink or smoke when using this product. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Store locked up.

### 7.3. Specific end use(s)

not available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

The mixture contains substances for which occupational exposure limits are set.

#### United Kingdom

#### EH40/2005 Workplace exposure limits (Fourth Edition 2020)

| Substance name (component)        | Type      | Value                 | Note  |
|-----------------------------------|-----------|-----------------------|---|
| Cellulose (pure) (CAS: 9004-34-6) | WEL 8h    | 10 mg/m <sup>3</sup>  | inhalable dust  |
|                                   | WEL 15min | 20 mg/m <sup>3</sup>  |   |
|                                   | WEL 8h    | 4 mg/m <sup>3</sup>   | respirable dust   |
| GLYCERIN mist (CAS: 56-81-5)      | WEL 8h    | 10 mg/m <sup>3</sup>  |   |
| Propane-1,2-diol (CAS: 57-55-6)   | WEL 8h    | 10 mg/m <sup>3</sup>  | particulates  |
|                                   | WEL 8h    | 474 mg/m <sup>3</sup> | total vapour and particulates   |
|                                   | WEL 8h    | 150 ppm               |   |
| nicotine (ISO) (CAS: 54-11-5)     | WEL 8h    | 0,5 mg/m <sup>3</sup> | Can be absorbed through the skin. The assigned substances are those for which there are concerns that dermal absorption will lead to systemic toxicity. |

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

### United Kingdom

### EH40/2005 Workplace exposure limits (Fourth Edition 2020)

| Substance name (component)    | Type      | Value                 | Note  |
|-------------------------------|-----------|-----------------------|---|
| nicotine (ISO) (CAS: 54-11-5) | WEL 15min | 1,5 mg/m <sup>3</sup> | Can be absorbed through the skin. The assigned substances are those for which there are concerns that dermal absorption will lead to systemic toxicity. |

### 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

It is not needed.

#### Skin protection

Hand protection: Protective gloves resistant to the product. Contaminated skin should be washed thoroughly.

#### Respiratory protection

It is not needed.

#### Thermal hazard

Not available.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|  |                    |
|--|--------------------|
| Appearance                                   |                    |

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

not available

#### 10.2. Chemical stability

The product is stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Unknown.

#### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

#### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

#### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Inhalation of solvent vapors above values exceeding exposure limits for working environment may result in acute inhalation poisoning, depending on the level of concentration and exposure time. No toxicological data is available for the mixture.

#### Acute toxicity

Toxic if swallowed. Data for the components of the mixture are not available.

| Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches |           |             |               |         |     |                      |

### Respiratory or skin sensitisation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Germ cell mutagenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Carcinogenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Reproductive toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - single exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - repeated exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Aspiration hazard

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

---

## SECTION 12: Ecological information

### 12.1. Toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### 12.2. Persistence and degradability

No data are available for either the mixture or the components.

### 12.3. Bioaccumulative potential

No data are available for either the mixture or the components.

### 12.4. Mobility in soil

No data are available for either the mixture or the components.

### 12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

### 12.6. Other adverse effects

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

---

## SECTION 13: Disposal considerations

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

### 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

#### Waste management legislation

Producer Responsibility Obligations (Packaging Waste) Regulations 2007 (S.I. No. 871 of 2007). Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

## SECTION 14: Transport information

### 14.1. UN number

not subject to transport regulations

### 14.2. UN proper shipping name

not relevant

### 14.3. Transport hazard class(es)

not relevant

### 14.4. Packing group

not relevant

### 14.5. Environmental hazards

not relevant

### 14.6. Special precautions for user

Reference in the Sections 4 to 8.

### 14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

not relevant

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Clean Air Act 1993 as amended. The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 as amended. Public health act 1961. Environmental Protection Act 1990 as amended. Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

### 15.2. Chemical safety assessment

not available

## SECTION 16: Other information

### A list of standard risk phrases used in the safety data sheet

|      |  |
|------|--|
| H301 | Toxic if swallowed.                              |
| H302 | Harmful if swallowed.                            |
| H315 | Causes skin irritation.                          |
| H319 | Causes serious eye irritation.                   |
| H411 | Toxic to aquatic life with long lasting effects. |

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Kingston Blackcurrant Ice - 12mg/pouch Nicotine pouches

|               |                 |              |     |
|---------------|-----------------|--------------|-----|
| Creation date | 06th March 2024 | Revision no. |     |
| Revision date | 06th March 2024 | Version      | 1.0 |

H300+H310+H330 Fatal if swallowed, in contact with skin or if inhaled.

### Guidelines for safe handling used in the safety data sheet

|           |  |
|-----------|--|
| P101      | If medical advice is needed, have product container or label at hand.  |
| P102      | Keep out of reach of children.   |
| P264      | Wash hands and exposed parts of the body thoroughly after handling.  |
| P301+P310 | IF SWALLOWED: Immediately call a doctor.   |
| P405      | Store locked up.   |
| P501      | Dispose of contents/container to by handing over to the person authorized to dispose of waste or by returning to the supplier. |

### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

### Key to abbreviations and acronyms used in the safety data sheet

|         |   |
|---------|---|
| ADR     | European agreement concerning the international carriage of dangerous goods by road               |
| BCF     | Bioconcentration Factor   |
| CAS     | Chemical Abstracts Service  |
| CLP     | Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures |
| EC      | Identification code for each substance listed in EINECS   |
| EINECS  | European Inventory of Existing Commercial Chemical Substances                                     |
| EmS     | Emergency plan  |
| EU      | European Union  |
| EuPCS   | European Product Categorisation System  |
| IATA    | International Air Transport Association   |
| IBC     | International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals       |
| ICAO    | International Civil Aviation Organization   |
| IMDG    | International Maritime Dangerous Goods  |
| INCI    | International Nomenclature of Cosmetic Ingredients  |
| ISO     | International Organization for Standardization  |
| IUPAC   | International Union of Pure and Applied Chemistry   |
| log Kow | Octanol-water partition coefficient   |
| MARPOL  | International Convention for the Prevention of Pollution from Ships                               |
| OEL     | Occupational Exposure Limits  |
| PBT     | Persistent, Bioaccumulative and Toxic   |
| ppm     | Parts per million   |
| REACH   | Registration, Evaluation, Authorisation and Restriction of Chemicals                              |
| RID     | Agreement on the transport of dangerous goods by rail   |
| UN      | Four-figure identification number of the substance or article taken from the UN Model Regulations |
| UVCB    | Substances of unknown or variable composition, complex reaction products or biological materials  |
| VOC     | Volatile organic compounds  |
| vPvB    | Very Persistent and very Bioaccumulative  |

|                 |  |
|-----------------|--|
| Acute Tox.      | Acute toxicity                                 |
| Aquatic Chronic | Hazardous to the aquatic environment (chronic) |
| Eye Irrit.      | Eye irritation                                 |
| Skin Irrit.     | Skin irritation                                |

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
